FIG. 2

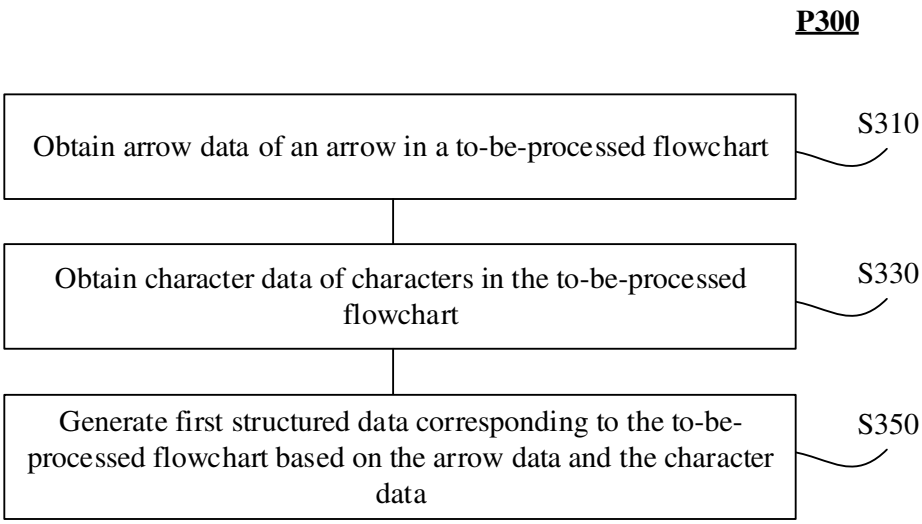

P300
Obtain arrow data of an arrow in a to-be-processed flowchart
S310
Obtain character data of characters in the to-be-processed flowchart
S330
Generate first structured data corresponding to the to-be-processed flowchart based on the arrow data and the character data
S350

FIG. 3

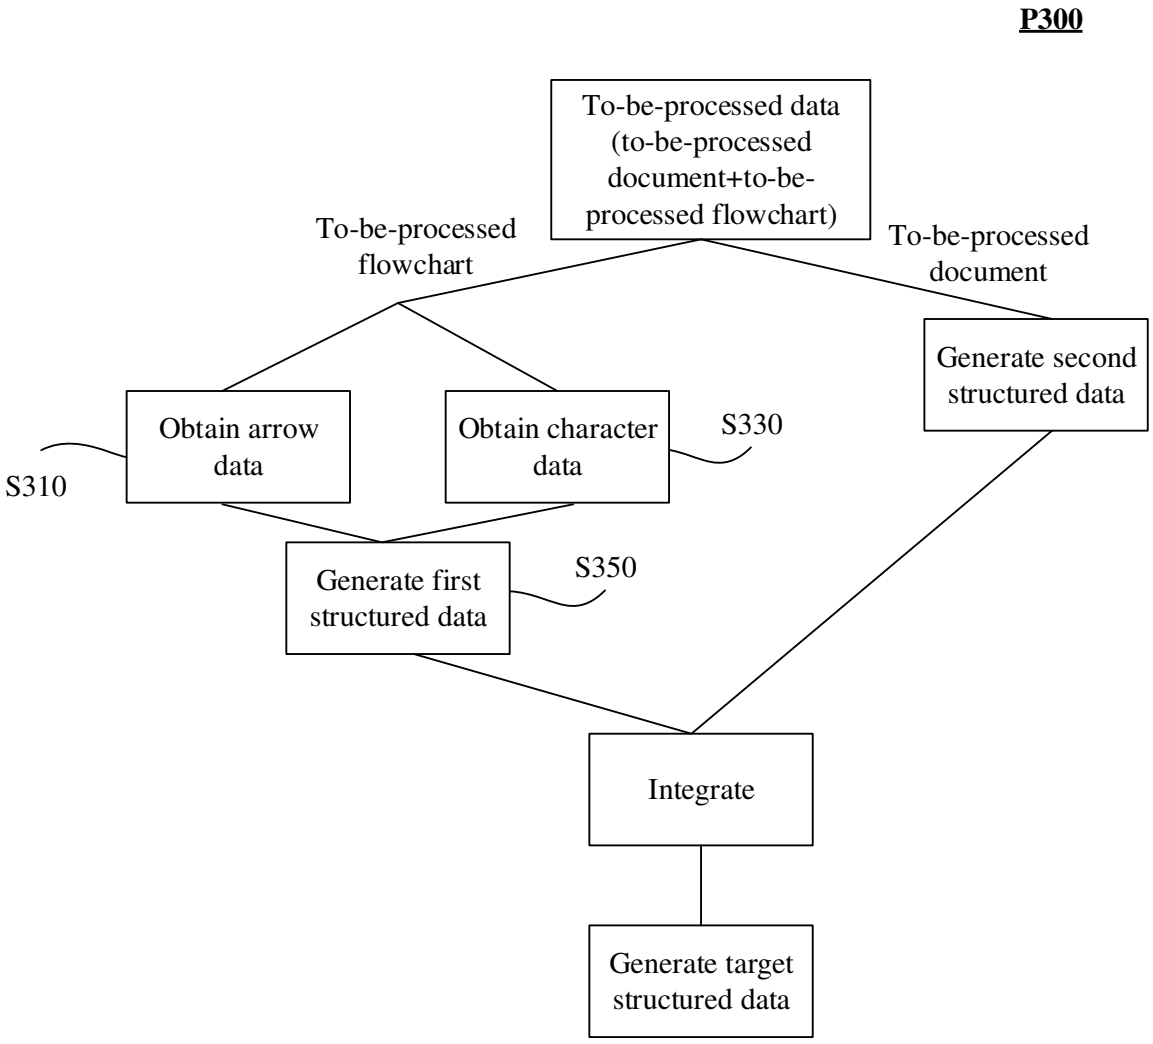

P300
To-be-processed data (to-be-processed document+to-be-processed flowchart)
To-be-processed flowchart
To-be-processed document
Generate second structured data
Obtain arrow data
Obtain character data
S330
S310
Generate first structured data
S350
Integrate
Generate target structured data
