ABSTRACT

MELANOCORTIN TYPE 4 RECEPTOR AGONIST PIPERIDINOYLPYRROLIDINES

The present invention relates to a class of melanocortin MCR4 agonists of general formula (I), wherein the variables and substituents are as defined herein and especially to selective MCR4 agonist compounds, to their use in medicine, particularly in the treatment of sexual dysfunction and obesity, to intermediates useful in their synthesis and to compositions containing them.

Formula (1).
