

Automated system for issuing and managing offence tickets

ABSTRACT

A system for issuing and managing offence tickets comprising a portable input device (12) provided to the police officer (10), an unalterable tamper-resistant ticketing card (14) adapted to be presented in front of the input device so as to record vehicle-related data, clipping means enabling the police officer to clip the card onto the windshield wiper arm such that the card is not damaged by rain and cannot be easily removed after it has been clipped, a viewing device (18) enabling the vehicle owner to read and print the information relative to the offence, a processing center (22) containing the information relative to all registered vehicles, and access means via the cellular phone network (20) so as to enable the police officer to obtain information about the contravening vehicle from the processing center.
