ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.*

(54) Title: A FOLDABLE, EXPANDABLE FRAMEWORK FOR A VARIETY OF STRUCTURAL PURPOSES

(57) Abstract: A foldable, deployable framework (1100) for a structure has a lower hub (1101) having a first central axis, sets of tracks (1103), masts (1104), and rafters (1105) connected pivotally to the lower hub (1101), to one another, and to an upper hub (1102) in a manner that allows the framework (1100) to be folded into one, two or three small packages, and to be deployed into a structural frame supporting floors, walls, and roof for an enclosed structure. In different versions folding and deployment is accomplished in a different way. Structures based on the framework can be made for many and varied purposes.
