

ABSTRACT

POLYURETHANE ELASTIC FIBERS, PRODUCT CONTAINING SAME, AND SURFACE TREATMENT AGENT FOR POLYURETHANE ELASTIC FIBERS

5

The present invention provides: polyurethane elastic fibers having good unwindability even with little silicone oil content, and exhibiting hardly any unraveling of a multifilament into single strands; a product containing the same; and a surface treatment agent for polyurethane elastic fibers, said agent being suitable for the production of said polyurethane elastic fibers. Polyurethane elastic
10 fibers characterized by containing from 10 ppm to 10,000 ppm of a hydrocarbon compound represented by formula (1) (where, n represents an integer from 2 to 5) with respect to the weight of the polyurethane elastic fibers; a surface treatment agent for polyurethane elastic fibers, said agent characterized by containing from 0.10% by weight to 25% by weight of said hydrocarbon compound; a fabric containing said polyurethane elastic fibers; and a sanitary material product.
