(54) Title: METHOD AND TERMINAL FOR TRANSMITTING INFORMATION USED IN INSTANT MESSAGING APPLICATIONS

FIG. 1

(57) Abstract: The present disclosure provides an information transmitting method and terminal for the same. The method can comprise: establishing a communication connection between an execution terminal and a command terminal into which an IM message is entered when the command terminal detects an information transmission request from the execution terminal; recording multimedia information by the execution terminal and sending the multimedia information from the execution terminal to the command terminal which has established the communication connection with the execution terminal; receiving the multimedia information by the command terminal and inserting the multimedia information by the command terminal into the IM message. The present disclosure can accomplish the transmission of multimedia information via inter-terminal interaction, thereby allowing a terminal into which an IM message is entered to obtain multimedia information from other terminals and increasing the convenience of using IM applications and the applications
