3 January 2014

(54) **Title:** SYNCHRONIZING DIGITAL CONTENT**Fig. 4A**

(57) **Abstract:** Aspects of the present disclosure relate to one or more configured computing systems identifying when decoupled content includes companion content that can be synchronously presented. Once a content match is identified, a device to receive synchronization information can also be identified. The synchronization information can enable one or more devices to synchronously present companion content.
