(54) **Title**: METHODS OF PROCESSING INCLUDING PEELING

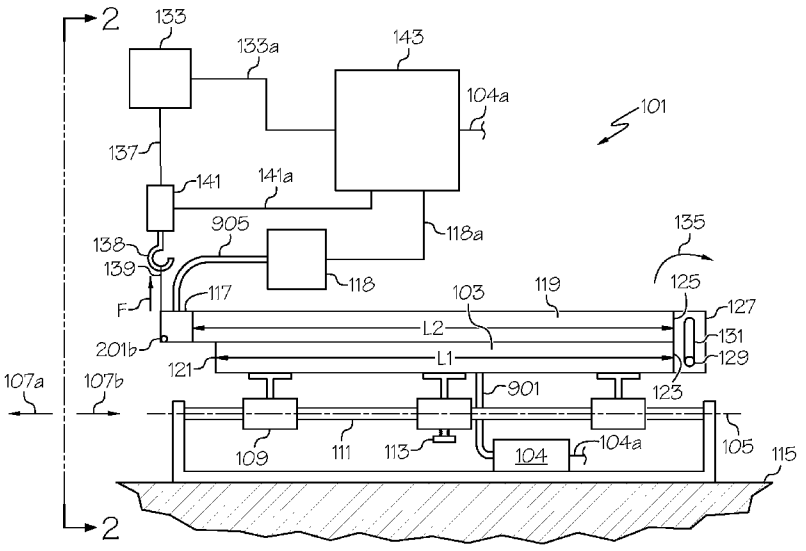

FIG. 1

(57) **Abstract**: Methods include processing a first substrate with a first major surface of the first substrate removably bonded to a first major surface of a second substrate. The methods comprise the step (I) of bonding a flexible membrane to a second major surface of the first substrate, wherein the flexible membrane includes a tab that extends off a leading peripheral edge of the first substrate. The methods further include the step (II) of peeling the leading peripheral edge of the first substrate from the second substrate by applying a force to the tab.
