- with international search report (Art. 21(3))
- with amended claims (Art. 19(1))

(54) Title: WALL PROTECTION ASSEMBLY

Figure 1

(57) Abstract: A protection assembly for protecting a wall, comprising: a coating system for coating a portion of the wall; a flexible covering for covering the coating system, and having fixing portions at end regions of the flexible covering; and a wall anchor system, wherein, in use, the coating system is located between the flexible covering and wall anchor system, and the flexible covering is anchored, at the fixing portions, in a tensioned condition to the wall by the wall anchor system, so the flexible covering produces a force to press the coating system against the wall.
