(54) Title: RETENTION TIME AND MILD COAGULATION FOR OBTAINING A COAGULATED TUBER PROTEIN PRODUCT

(57) Abstract: The invention is directed to a method for obtaining a coagulated tuber protein product from a tuber fruit juice. The method comprises subjecting the tuber fruit juice to a first coagulation step to form a coagulated low-grade fraction, separating at least part of the coagulated low-grade fraction from the tuber fruit juice to obtain a lean tuber fruit juice, subjecting the lean tuber fruit juice to a second coagulation step and collecting at least part of the coagulated tuber protein product. The invention is further directed to a coagulated tuber protein product and to a food product comprising the coagulated tuber protein product.
