(54) Title: SYSTEM AND METHOD FOR DEFINING AND PRESENTING A COMPOSITE WEB PAGE

(57) Abstract: A method for defining a composite web page is disclosed which includes identifying a web page referencing at least one associated element. The method further includes analyzing the web page to determine a list of the associated elements and presenting the list to a user. A user selection of one or more associated elements from the list is received and registered for later retrieval. A method for presenting a composite web page is also disclosed. Systems and computer-readable storage media for defining and presenting a composite web page are also disclosed.
