

ABSTRACT

The present invention aims to provide a composition for activating TGR5 containing a substance having a TGR5-
5 activating action and high selectivity to TGR5 as an active ingredient, and a method of activating TGR5 using a substance having a TGR5-activating action and high selectivity to TGR5. The present invention relates to, for example, a composition for activating TGR5, the composition
10 containing at least one soyasapogenol as an active ingredient.
