ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: EYEGLASSES

(57) Abstract: Eyeglass (10)es including a lens (12, 14), a connector (22, 24) and a bow (18, 20). The connector (22, 24) is connected to the lens (12, 14) and includes an attachment section 65 extending substantially outwardly from the lens (12, 14). The bow (18, 20) includes a main segment (19, 21) defining a longitudinal axis and an auxiliary segment (23, 25) defining an auxiliary axis, the auxiliary axis extending generally inwardly towards the lens (12, 14). The auxiliary segment (23, 25) releasably interlocks and engages the attachment section 65 upon the relative motion of the bow (18, 20) upon an insertion axis, the insertion axis being angled at 45° or less with respect to the longitudinal axis.
