(54) Title: CORE/SHEATH STRUCTURE, METHOD FOR MANUFACTURING FLOCK PRODUCTS, AND FLOCK PRODUCTS

【FIGURE 2】

(57) Abstract: To provide a forming material or a flock product having a comfortable tactile feeling. A core / sheath structure composing a forming material or a formed product which is a melted and cured product of the forming material, comprising: a core having a linear shape and an outer peripheral surface and including a first thermoplastic polymer; and a sheath covering the outer peripheral surface and including a second thermoplastic polymer and at least one selected from a group consisting of fibers and particles dispersed in the second thermoplastic polymer. A flock product comprising: a main body having a surface and composed of a forming material including a thermoplastic polymer or a formed product which is a melted and cured product of the forming material; an adhesive layer arranged on the surface; and a flock pierced into the adhesive layer.
