(54) **Title:** INTERACTIVE DISPLAY WITH SPECIAL EFFECTS ASSEMBLY

FIG. 1

(57) **Abstract:** A three-dimensional display system (10) includes a first display (22) and a second display (24) spaced apart from the first display having one or more light sources configured to emit light and to illuminate the first display, where the first display is at least partially transparent such that the second display is visible through the first display. The three-dimensional display system (28) includes a special effect system disposed at least in part between the first display and the second display and is configured to be activated to cause a special effect to be visible through the first display. The three-dimensional display system includes a controller communicatively coupled to the first display, the second display, and the special effect system.
