MC, MK, MT, NL, NO, PL, PT, RO, RS, SE, SI, SK, SM,

(54) Title: CONTINUOUS FLOW SYSTEM FOR THE PRODUCTION AND PURIFICATION OF BIODIESEL

Figure 2

(57) Abstract: Provided is a system and method for producing and purifying biodiesel. In particular, the system comprises a tandem arrangement of a modular biodiesel reactor and a continuous flow separation and purification unit. The system can further comprise an evaporation unit that is placed between the biodiesel reactor and the continuous flow separation and purification unit. Advantageously the continuous flow separation and purification unit is arranged in one column that comprises at least one separation section, at least one wet washing section and at least one dry washing/purification section.
