Figure 1

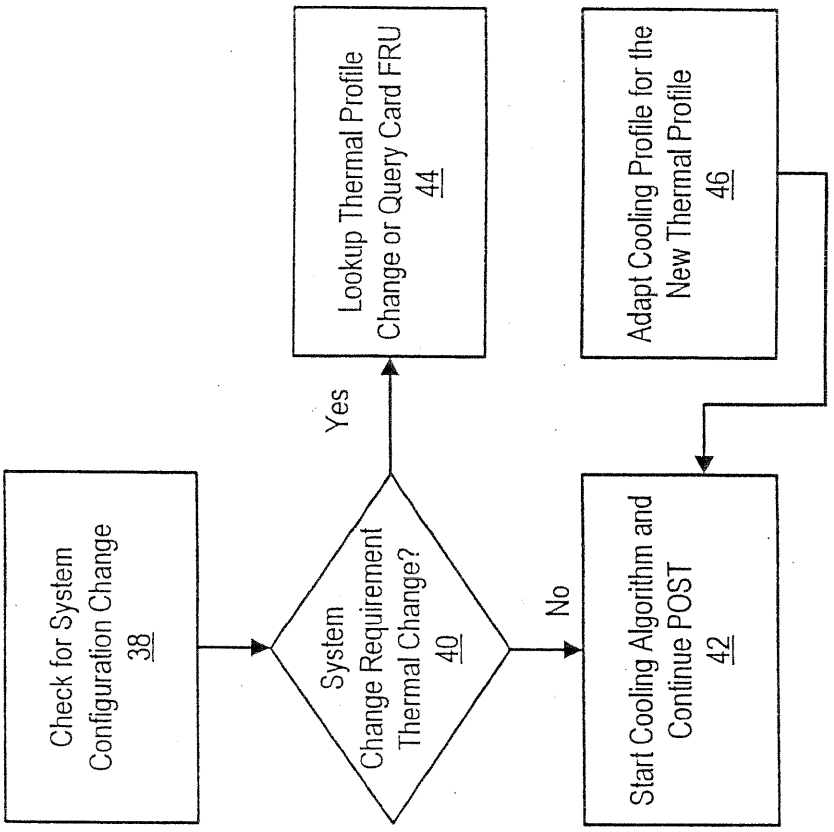

Check for System Configuration Change
38
System Change Requirement Thermal Change?
40
Yes
No
Lookup Thermal Profile Change or Query Card FRU
44
Adapt Cooling Profile for the New Thermal Profile
46
Start Cooling Algorithm and Continue POST
42

Figure 2

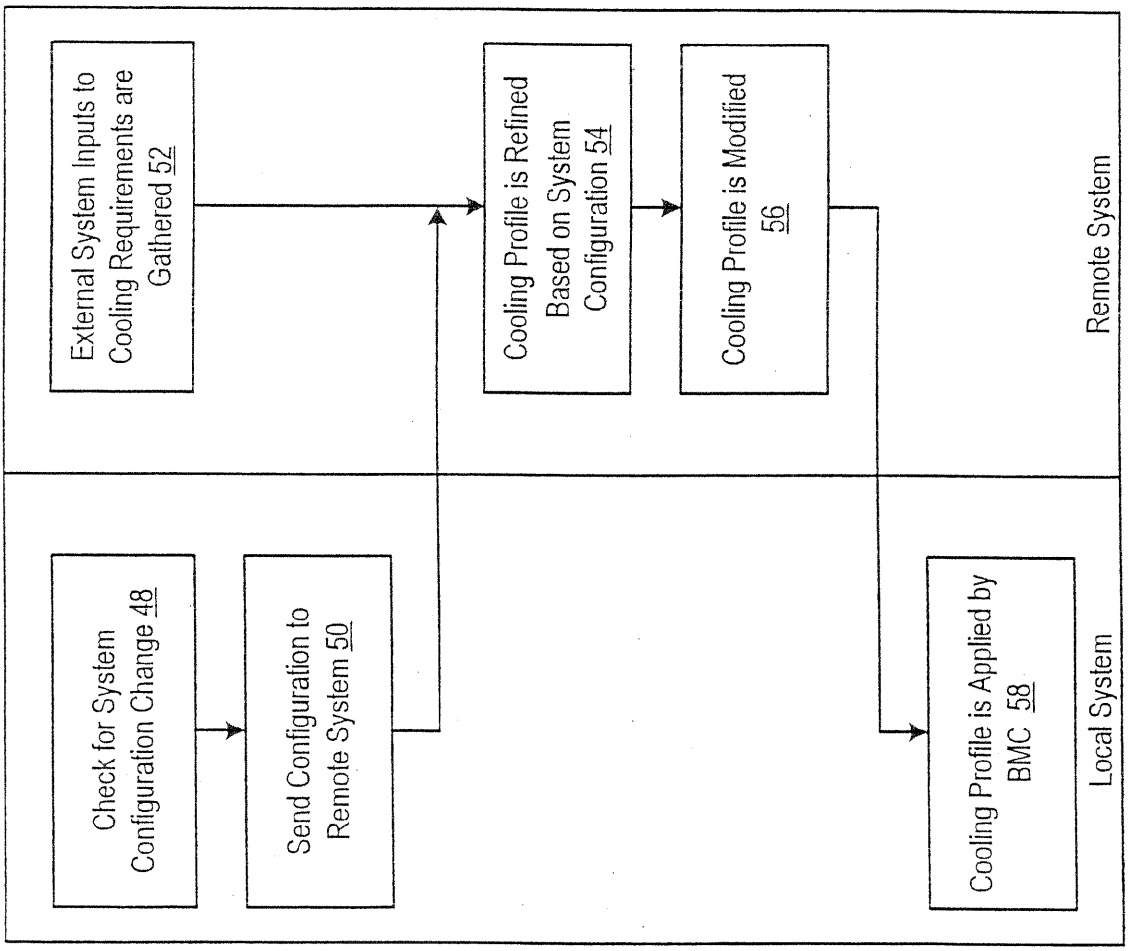

Check for System Configuration Change 48
Send Configuration to Remote System 50
External System Inputs to Cooling Requirements are Gathered 52
Cooling Profile is Refined Based on System Configuration 54
Cooling Profile is Modified 56
Cooling Profile is Applied by BMC 58
Local System
Remote System
