ABSTRACT OF THE DISCLOSURE (FIG. 1)

"DISK DRIVE USING MAGNETIC DISK MEDIUM
OF DISCRETE TRACK RECORDING"

5

A magnetic disk medium of a discrete track
recording (DTR) structure and a disk drive using the
magnetic disk medium are disclosed. The magnetic disk
medium of the DTR structure has positional-error
10 detection servo patterns in a servo region, the
positional-error detection servo patterns being formed
of null servo patterns. This enables magnetic regions
included in the servo region to occupy substantially
50% of the area of the servo region.
