(54) Title: A COMBINED TOILET AND SEAT APPARATUS

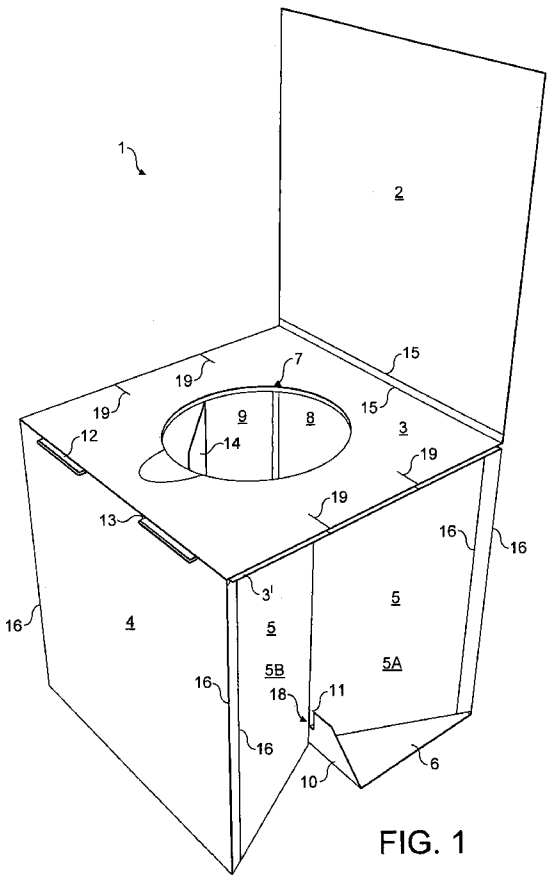

FIG. 1

(57) Abstract: A combined toilet and seat apparatus, capable of being transformed from a flat-pack configuration for storage and/or transportation to a box-like configuration for use. The apparatus comprises front and rear panels connected by respective side panels, which side panels are capable of forming inwardly-angled side panels to thereby provide support to a top panel connected to either of the front and/or rear panel, the top panel forming a seating platform and a base panel connected to either of the front or rear panel. The top panel and/or the base panel comprises one or more interlocking portions for interlocking the top panel and/or the base panel with one or both side panels to thereby maintain the apparatus in the box-like configuration.
