

ABSTRACT

HIGH-VOLTAGE CONNECTION DEVICE, IN PARTICULAR FOR A HIGH-VOLTAGE TRANSFORMER WITHOUT HIGH-VOLTAGE OUTPUT CABLES AND WITH A REMOVABLE POTENTIOMETRIC UNIT

The high-voltage transformer of the invention is joined by clip fastening (15, 17) to its high-voltage output cables. The ends of these cables are held firmly in chimneys (7, 8) moulded with the encapsulation of the coil of the transformer.

Application: colour televisions.
