(54) Title: METHOD FOR PREPARING POLYHALOGENATED PARATRIFLUOROMETHYLANILINES

(54) Titre: PROCEDE DE PREPARATION DE PARA-TRIFLUOROMETHYLANILINES POLYHALOGENEES

(57) Abstract

The invention concerns a novel method for preparing polyhalogenated paratrifluoromethylanilines particularly useful as reaction intermediates for preparing compositions used as insecticides. The products of the inventive method are obtained by the action of ammonia on polyhalogenated para-trifluoromethylbenzene at a temperature ranging between 150 and 350 °C. The inventive reaction can be carried out in the presence of an alkaline halide.

(57) Abrégé

La présente invention a pour objet un nouveau procédé de préparation de para-trifluorométhylanilines polyhalogénées particulièrement intéressantes comme intermédiaires de réaction pour la préparation de composés utilisés comme insecticides. On obtient les produits du procédé de l'invention par action d'ammoniac sur des para-trifluorométhylbenzènes polyhalogénés à une température comprise entre 150 et 350 °C. La réaction de l'invention peut être conduite en présence d'un halogénure alcalin.
