METHOD FOR TREATING ORGANIC WASTE

ABSTRACT OF THE DISCLOSURE

G00002

The invention has the object of offering a novel means for making effective use of organic wastes, and offering a method for producing a feed by efficiently treating organic wastes. The invention has the additional object of enabling highly concentrated organic wastes to be treated efficiently in a short time. In a treatment method where molds are mixed with organic wastes to ferment and dry, the oil content of the mixture is adjusted to at least 3 wt%, preferably at least 5 wt%, more preferably at least 10 wt%.
