ABSTRACT

MACHINE-READABLE FORM CONFIGURATION AND SYSTEM AND METHOD FOR BETTING

One embodiment of the present invention relates to a machine-readable form configuration (and associated system and method). Another embodiment of the present invention relates to a system (e.g., one or more computers) for betting. Another embodiment of the present invention relates to a method for betting. In one example, the machine -readable form may be a play slip for betting. Scanning betting or wagering marked slips. The system stores information in a host comprising a database. A receipt of the scanned ticket is issued. The user marks or crosses manually the cells of the sport wagering ticket.
