(54) Title: METHOD FOR CONNECTING SOLAR CELLS

(57) Abstract: A method of connecting two solar cells is disclosed. In one embodiment, the method comprises gripping (704) an interconnect (152) with a head (110) of positioning device, heating (706) the interconnect with the head of the positioning device to between two predetermined temperatures, where one is higher than the other, positioning (708) the interconnect so as to overlay two adjacent solar cells (200), coupling (710) the interconnect to each of the two adjacent solar cells, and releasing (712) the interconnect from the head.
