The bar chart displays the number of correct answers (Y-axis, 0 to 10) for two conditions: 'not-blind' (grey bars) and '80:20:0' (white bars). The X-axis lists 10 questions. The 'not-blind' condition consistently shows higher performance across all questions, while the '80:20:0' condition shows very low performance, mostly below 2 correct answers.

Question	not-blind	80:20:0
1. Which of the following is not a type of...	9	1
2. Which of the following is not a type of...	8	1
3. Which of the following is not a type of...	8	1
4. Which of the following is not a type of...	8	1
5. Which of the following is not a type of...	8	1
6. Which of the following is not a type of...	8	1
7. Which of the following is not a type of...	8	1
8. Which of the following is not a type of...	8	1
9. Which of the following is not a type of...	8	1
10. Which of the following is not a type of...	8	1
