(54) Title: INVISIBLE SETTING AND METHODS AND TOOLS FOR EFFECTING SAME

(57) Abstract: A mounting (10) holds a grooved gemstone (12) invisibly to a setting (30). One end of the mounting (10) has arms or extensions (20 and 22) to receive the gemstone (12) and protrusions (18) extending inwardly from the arms (20 and 22) to fit in the grooves (16) of the gemstone (12), the mounting (10) further comprises a holding configuration (24) for holding the mounting (10) to the setting (30). Insertion of the mounting (10) into the setting (30) may in one version distort the holding configuration (24) and levers the arms (20 and 22) to press harder into the grooves (16).
