(54) Title: DIP TUBE ASSEMBLIES AND METHODS OF MANUFACTURING THE SAME

Fig. 1

(57) Abstract: A dip tube assembly having a tubular body portion and a coupler overmolded to a first end of the tubular body portion, the coupler configured for removable coupling with the mouth of a container storing contents therein. Also disclosed are a method of making the overmolded dip tube assembly and a container system including the overmolded dip tube assembly. In some embodiments, the tubular body portion and/or the coupler may include retention features molded into a surface thereof at an overmold interface between the tubular body portion and the coupler.
