(54) Title: A PAGING SYSTEM

(57) Abstract: A paging system includes a private branch exchange telephone system (2) having a number of registered users (7). Each registered user (7) is associated with a unique identification code and, optionally, a cell phone number (5). The private branch exchange (2), in response to a call to the registered user's extension (EXT1), dialing a call to the cell phone number (5) associated with the registered user (7).
