

# ABSTRACT

## CLEANING MEMBER ATTACHING PART, CLEANING MEMBER ASSEMBLY AND SUBSTRATE CLEANING APPARATUS

In one embodiment of the present invention, a cleaning member 90 is attached to the surface of a cleaning member attaching part 10. The cleaning member attaching part 10 has a main body 20, a cleaning liquid introduction part 30 extending inside the main body 20, and a plurality of cleaning liquid supply holes 40 communicating with the cleaning liquid introduction part 30. The cleaning liquid introduction part 30 is configured such that cleaning liquid flows in from a first end part 11 side, and an area proportion of the cleaning liquid supply holes 40 in a second region located on a second end part 12 side opposite to the first end part 11 to a surface of the main body 20 is larger than the area proportion of the cleaning liquid supply holes 40 in a first region located on the first end part 11 side to the surface of the main body 20.
