(54) Title: VEHICLE STABILIZATION IN THE EVENT OF LARGE DETONATION

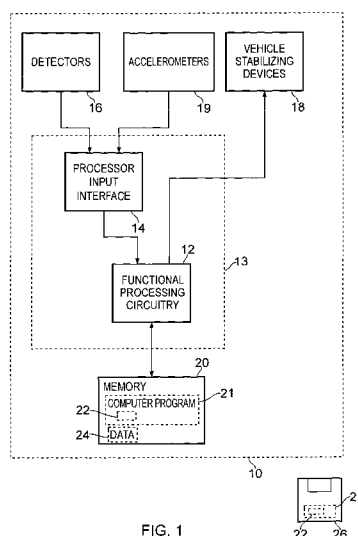

FIG. 1

(57) Abstract: A vehicle, apparatus (10), method and computer program are provided. The vehicle comprises: vehicle stabilizing means (18) for ejecting at least one non-gaseous mass (52); means (16) for detecting an explosion local to the vehicle; and control means (12) for controlling, in response to detection of an explosion local to the vehicle, the vehicle stabilizing means to eject at least one non-gaseous mass in order to apply a force to the vehicle and stabilize the vehicle in response to the explosion.
