TAMIL TO TAMIL E-DICTIONARY WITH EXAM BOARD COMPLIANCE

Abstract:

A portable word information storage electronic apparatus and language interpreter with faculties of examining a full-length word based on a partial word entered and of displaying the total word and corresponding meaning or definition together with synonym in the Tamil Language. Figure 1 an isometric view of a portable electronic dictionary accordingly to the present invention. Currently Electronic Dictionaries are available for Chinese and Malay Students, but not for Tamil Students. Referring the paperback dictionary is a time consuming ordeal under stressful exam conditions and has limitations on volume of words to get the right meaning. The paperback version has been highly inaccessible due to the rarity of the product in the Singapore.Therefore, the present invention discloses the use of the latest technology and features through an electronic device for Tamil to Tamil meaning and language interpreting to help Students in their learning and exams (Figure 1)
