- with international search report (Art. 21(3))

(54) Title: SUBMERSIBLE FILTER SYSTEM

(57) Abstract: The disclosed subject matter is directed to a filter system comprising an exposed filtration media. The filter system further comprises a raw liquid inlet flow path into a filtering side of the filtration media, a filtered liquid outlet flow path at a filtered side of the filtration media extending to a filtered liquid collecting port, a liquid pump for propelling liquid through the filtration media, and a rinsing mechanism for removing filtrate from the filtering side of the filtration media.
