ABSTRACT

Provided is a beauty aid capable of producing a skin pressing massage effect and a skin nip-lifting massage effect simultaneously through unidirectional motion of a body of the beauty aid. A body (12) has four support shafts (13) to (16) located on shaft lines which extend inclinedly so as to spread out toward distal ends thereof. The support shafts (13) to (16) rotataby support massage rollers (17) to (20).
