(54) Title: TREATMENT OF PAPULOPUSTULAR ROSACEA WITH IVERMECTIN

Figure 5C

* p<.01, ** p<.001

(57) Abstract: Methods and compositions for safe and effective treatment of papulopustular rosacea in a subject are described. The methods involve topically applying to an affected skin area a topical composition containing ivermectin and a pharmaceutically acceptable carrier. Treatment with ivermectin represents an innovative therapy that is more robust and effective than the conventional treatments.
