- (54) **Title:** LIGHT-CURABLE ARTIFICIAL NAILS, METHODS OF PREPARATION AND METHODS OF USE THEREOF

FIG. 1D

- (57) **Abstract:** A light-curable artificial nail (100) is disclosed having an adhesive section (118A, 118B) including a light-curable composition in a semi-cured state. The light-curable composition is configured to transition from the semi-cured state to a cured state based on exposure to at least one wavelength of electromagnetic radiation. The light-curable artificial nail includes a strengthening section (120) disposed above the adhesive section and a polish section (122) disposed above the adhesive section.
