(54) Title: MULTIPLE UNIT PHARMACEUTICAL FORMULATION

(57) Abstract: An orally disintegratable benzimidazole formulation, featuring a plurality of compressed pellets in a MUPS tablet. The individual units feature a substrate with the active ingredient and an enteric coating, optionally with a subcoating between the substrate and the enteric coating. The individual units are preferably at least partially coated with an outer coating which features a stress absorber, thereby enabling the pellets to be compressed without disturbing the integrity of the enteric coating. The enteric coating preferably does not feature a plasticizer.
