

MOBILE COMMUNICATION METHOD AND RADIO BASE STATION

ABSTRACT

5 A mobile communication method according to the present
invention includes the steps of: (A) calculating, at the radio
base station (eNB1), an estimated neighbor radio base station
parameter, on a basis of load information acquired from a
neighbor radio base station (eNB2), the estimated neighbor
10 radio base station parameter being supposed to be used in the
neighbor radio base station (eNB2); and (B) notifying, from the
radio base station to (eNB1) the neighbor radio base station
(eNB2), the estimated neighbor radio base station parameter.
