(54) Title: SYSTEM AND METHOD FOR SUPPRESSING TRANSMISSIONS FROM A WIRELESS DEVICE

FIG. 1

(57) Abstract: When several devices communicate through a wireless network, a device may, for example, as a result of having been compromised, transmit an unacceptably high level of traffic, which may interfere with the ability of other devices to communicate through the network, and which may burden the processing resources of devices receiving the traffic. As such, a system and method for suppressing transmissions from a wireless device are provided.
