

ABSTRACT

An object of the present invention is to provide a methacrylate-containing composition having high quality stability during storage.

The methacrylate-containing composition according to one example
 5 comprises methacrylic acid, a compound (component A1) represented by Formula (11), and a polymerization inhibitor (component B), in which the concentration of the methacrylic acid is 98.00% to 99.99% by mass.

R^{1a} , R^{2a} , R^{3a} , R^{4a} , R^{5a} , and R^{6a} : a hydrogen atom, an alkyl group, an alkenyl
 10 group, an aryl group, a hydroxy group, an alkoxy group, an amino group, a monovalent group including a carbonyl group, an alkylthio group, or an arylthio group.

Two or more of R^{1a} , R^{2a} , R^{3a} , R^{4a} , and R^{5a} : groups other than a hydrogen atom.

15 R^{7a} : a hydrogen atom, an alkenyl group, an aryl group, a hydroxy group, an alkoxy group, an amino group, a monovalent group including a carbonyl group, an alkylthio group, or an arylthio group.
