

PERSONNEL BIDDING SUPPORT SYSTEM, PERSONNEL BIDDING SUPPORT
METHOD, PERSONNEL BIDDING SUPPORT DEVICE, AND PERSONNEL
BIDDING SUPPORT PROGRAM

5 [ABSTRACT]

According to an aspect of the present disclosure, there is provided a personnel
bidding support system including a subject terminal device, a dispatch destination
terminal device, and a personnel bidding device connected to the subject terminal device
and the dispatch destination terminal device through a communication network, wherein
10 the personnel bidding device including: an issuing unit that issues bid points to a dispatch
destination company; an information providing unit that transmits personnel information
acquired from the subject terminal device to the dispatch destination terminal device; a
bid acceptance unit that accepts a bid request including subject information and bid point
number information from the dispatch destination terminal device; and a dispatch
15 destination determination unit that determines a dispatch destination of the subject on the
basis of the bid request.
