

**STERILIZED HETEROCYCLIDENE-ACETAMIDE-DERIVATIVE-CONTAINING
SUSPENSION**

[ABSTRACT]

5 The present disclosure provides a suspension ophthalmic
solution having exceptional re-dispersibility. More
specifically, the present disclosure provides an aqueous
suspension containing heat-treated (E)-2-(7-
trifluoromethylchroman-4-ylidene)-N-(7-hydroxy-5,6,7,8-
10 tetrahydronaphthalen-1-yl)acetamide or a pharmacologically
acceptable salt or solvate thereof. In particular, the present
disclosure relates to technology for improving the re-
dispersibility of a suspension that contains a heterocyclidene
acetamide derivative or to formulation technology based
15 thereupon.
