

SLIDER PACKAGING STRUCTURE

Abstract

The present invention relates to a package (1, 1a, 1b, 1c) having a front panel (2, 2a, 2b, 2c), first side panel (3, 3a, 3b, 3c), a second side panel (4, 4a, 4b, 4c), a back panel (12, 12a, 12b, 12c), a top panel (5, 5a, 5b, 5c, 5d, 5e), and a bottom panel (14, 14a, 14b, 14d). The front panel (2, 2a, 2b, 2c) of the package (1, 1a, 1b, 1c) may have or may not have a hole (11, 11b), allowing some parts of the products (19, 19a, 19b, 19c) within the package (1, 1a, 1b, 1c) to be visible from the outside. The package (1, 1a, 1b, 1c) also has a housing section (13, 13a, 13b, 13c, 13d, 13e) to contain the products (19, 19a, 19b, 19c) loaded into the package (1, 1a, 1b, 1c). The top panel (5, 5a, 5b, 5c, 5d, 5e) is opened when loading products (19, 19a, 19b, 19c) into the housing section (13, 13a, 13b, 13c, 13d, 13e) of the package (1, 1a, 1b, 1c), and closed after the products (19, 19a, 19b, 19c) have been loaded. The package (1, 1a, 1b, 1c) also comprises one or more perforated taps (9, 9a, 9b, 9c, 9d, 9e, 10, 10a, 10b, 10c, 10d, 10e) on either or both the first side panel (3, 3a, 3b, 3c) and the second side panel (4, 4a, 4b, 4c) thereof. The present package (1, 1a, 1b, 1c) provides ease of retrieval for the packaged products by incorporating a slider panel (15, 15a, 15b, 15c) with a base (16, 16a, 16b) or a slider panel (15c) having an extended end (23) within the package (1, 1a, 1b). With the use of this package (1, 1a, 1b, 1c), manufacturers can ensure that consumers can effortlessly remove the products (19, 19a, 19b, 19c) without the need to tilt, shake, or struggle with the packaging. This feature is particularly useful for items that need to be accessed individually while keeping the remaining products (19, 19a, 19b, 19c) secure, and when customers want to inspect the product (19, 19a, 19b, 19c) without fully opening the packaging. The present package (1, 1a, 1b, 1c) can be used for batteries, hooks, candies, cigarettes, cigars, or other items which are sold in sets in the market.
