(54) Title: LOWER LEG RESTRAINT SYSTEM

FIG. 2

(57) Abstract: Systems and methods presented herein include an amusement park attraction (14) having a guest restraint device (30) configured to restrain a guest (12) of the amusement park attraction (14). The amusement park attraction (14) also includes a lower leg restraint system (20) configured to restrain portions of one or more lower legs (46) of the guest (12) relative to the guest restraint device (30) while the guest (12) is restrained by the guest restraint device (30) of the amusement park attraction (14). The lower leg restraint system (20) may partially or fully surround the one or more lower legs (46) of the guest (12). In addition, in certain embodiments, a control system (32) is configured to actuate one or more actuators (86, 110, 126) of the lower leg restraint system (20) to cause one or more restraining features (66, 102, 116) of the lower leg restraint system (20) to restrain the portions of the one or more lower legs (46) of the guest (12) relative to the guest restraint device (30).
