(54) **Title:** PATH TRANSFER ATTRACTION SYSTEM FOR AMUSEMENT PARK

FIG. 1

(57) **Abstract:** An amusement park attraction system includes a first track, a second track configured to move relative to the first track, one or more ride vehicles configured to move along the first track and toward the second track, and one or more camages coupled to the second track. The one or more carriages are configured to receive the one or more ride vehicles from the first track and to move along and/or about the second track to drive movement of the one or more ride vehicles along and/or about the second track.
