(54) **Title:** MOBILITY IN A WIRELESS COMMUNICATION NETWORK

Fig. 6

(57) **Abstract:** There is provided a method in a first network function, the method comprising sending a request to a second network function, the request requesting a deletion of a first policy association, wherein the first policy association was established for at least one PDU session, the at least one PDU session established by a wireless communication device in a first mobile communications technology and the at least one PDU session being transferred to a second mobile communications technology. The method further comprises receiving a processing response from the second network function, the processing response indicating that wireless communication device supports a second policy association, the second policy association for the second mobile communications technology.
